

## **Global American Announces Partnership with Cervoz**

**October 5, 2015:** Today Global American Inc., a leader in System Integration for the Embedded and Industrial markets, announced they would be partnering with Memory and Storage Device Manufacturer, Cervoz.

Cervoz, established in 2006, develops, produces and markets COST EFFECITVE industrial storage and memory products for professional, critical, and diverse industrial applications, specializing in embedded components for the demanding Industrial PC market.

At the forefront, Cervoz stands by their Fixed BOM Principle, guaranteeing that there are no changes to any of the components after the product has been launched. This is especially important for customers in the Industrial Automation, Medical and Defense industries.

In line with their ongoing commitment to providing quality embedded products and integration services worldwide, Global American will carry Cervoz's long life and industrial mSATA and SSD drives, as well as high temperature and low profile memory from DDR to the most current, DDR4.

Global American, a US-based company with headquarters in Hudson, New Hampshire, was founded in 1989. Focusing on both legacy and new technology in only the Embedded/Industrial arena, Global distributes and integrates product from over 100 different board and peripheral manufacturers and ships their product worldwide.
