

## M2-M610 – 10GbE M.2 Card

The M2-M610 supports dual 10GbE via the M.2 M 2280 interface on any Motherboard or PC to add performance to any application.

### SPECIFICATIONS

|                              |                                                                                                                                                 |
|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Solution</b>              | 10GbE Ethernet                                                                                                                                  |
| <b>Form Factor</b>           | M.2 (M Key) 2280                                                                                                                                |
| <b>Interface</b>             | M.2                                                                                                                                             |
| <b>Controller</b>            | Intel® E610-XAT2                                                                                                                                |
| <b>Transfer Rate</b>         | 10 Gb/s, 5 Gb/s, 2.5Gb/s, 1 Gb/s, or 100 Mb/s                                                                                                   |
| <b>Compliance</b>            | IEEE 802.3 Ethernet interface for 10GBase-T, 5GBase-T, 2.5GBase-T, 1000Base-T, and 100Base-TX applications (802.3an, 802.3bz, 802.3ab, 802.3u). |
| <b>Dimensions</b>            | 22.00mm x 80.00mm                                                                                                                               |
| <b>Operating Temperature</b> | 0 ~ 60-° C (32-° F ~ 140-° F)                                                                                                                   |
| <b>Storage Temperature</b>   | -40 ~ 85 °C (-40 ~ 185 °F)                                                                                                                      |
| <b>OS Software Supported</b> | Windows 10; Windows11; Windows Server 2022 and 2025 (no support for x32-bit OS); Linux (kernel versions 6.18 or newer))                         |
| <b>Global P/N / SKU</b>      | 1507986                                                                                                                                         |
